

## ecoENERGY Rebates are Back!

Call Langton Heating & Air Conditioning to get information on the Federal government grants to property owners who complete energy efficiency retrofits.

### Here's how it works:

1. Call Langton to set you up with one of our associates to perform an energy evaluation of your home.
  - The cost of the first evaluation is \$300+HST (with a \$150 rebate from the Ontario Government).
2. Select the improvements from your home energy action checklist.
3. Implement some or all of the recommended energy upgrades by March 31, 2012.
4. Our Associate will arrange your post-retrofit evaluation so that your grant application may be completed and submitted to Natural Resources Canada. The cost of the second evaluation is \$150+HST (Net cost of both visits is \$300 + HST inclusive after the \$150 OME rebate)
5. Within **90-120 days** you will receive your grant based on the eligible upgrades performed.

| Upgrade Examples  | Federal Grant |
|---|---------------|
| 94% E-Star gas furnace, DC motor, 1 <sup>st</sup> install of condensing | \$790         |
| 90% E-Star condensing gas boiler or 85% E-Star oil boiler               | \$750         |
| Energy Star Central Air   | \$250         |
| HRV (HVI certified)   | \$375         |
| 90% efficiency E-Star instantaneous hot water heater                    | \$375         |
| Attic to R50 from R12 or less   | \$750         |
| Basement additional insulation of R 10                                  | \$625         |
| Main wall additional insulation of R-10                                 | \$1,875       |
| Low flush or dual flush toilet  | \$65          |
